- (c) If the first article is disapproved, the Contractor, upon Government request, shall repeat any or all first article tests. If first article tests reveal deviations from contract requirements, the Contractor shall, at the location designated by the Government, make the required changes or replace all items produced under this contract at no change in the contract price.
- (h) The Government may waive the requirement for first article approval test where supplies identical or similar to those called for in the schedule have been previously furnished by the Offeror/Contractor and have been accepted by the Government. The Offeror/Contractor may request a waiver.

TACOM-RI will evaluate offers based on prices proposed for all ordering periods and any other price related factors required by the solicitation.

For each proposal, TACOM-RI will calculate a total evaluated price by multiplying the proposed unit prices for each range and ordering period by their respective weight and maximum quantity, and summing their totals. The weight associated with each range represents the likelihood that an order, if placed, would be placed within the range.

The First Article Test (FAT) cost will be added to the Total Evaluated Price as applicable. The exclusion of the FAT cost is dependent upon whether or not an offeror will receive approval of a waiver.

It an offeror takes exception to or fails to propose all quantity ranges and ordering periods, including First Article Test, the Government may reject that offer as unacceptable.
